

DALLAS - 2323 BRYAN

ABOUT

The 2323 Bryan Street data center is the focal point for bundled communications, transport, and bandwidth exchange for the southwestern United States. Also known as Univision Tower, the building serves as the Southwest's foremost hub for communications providers from the United States, Latin America, Europe, and Asia Pacific. The Equinix Dallas data center offers colocation, interconnection and PAIX peering services.

LOCATION

2323 Bryan Street,
Dallas, TX, 75201, USA

PROFILE

Phone – 1.888.892.0607 (USA or Canada)
or 1.650.513.7600 (outside USA or Canada)
Email – support@equinix.com

POWER

Power Density – 2.4KW Max (utilization)

UPS System – 480 KW UPS System, System is deployed as N, UPS Battery backup systems are deployed to carry full design load for 15 minutes, UPS distribution systems support 480 KW primary with 30% additional for redundant circuits.

DC Plant – 115 KW DC System, System is deployed as 2N with dedicated A&B plants, DC Battery backup system are designed and deployed to carry full load for 2 hours per each plant, DC distribution systems support 115 KW primary with 30% additional for redundant circuits

Standby Generators – 1500 KW generator systems, Dedicated fuel system designed and deployed to sustain continuous operation at full design load for 24 hours

.FIBER

Fiber Diversity – Dual fiber entrance

TELCO INFORMATION

NPA/NXX – 214-231

ENVIRONMENT

Fire Suppression – Pre-Action double interlock fire suppression system, dual zoned smoke and heat fire alarm detection system, dry Pipe water based system, cross zone releasing function (three events must occur for full release)

HVAC – 563 KW of Heat Rejection Capacity, System is deployed as N+1, A/C units maintain a climate of 70 degrees (+/- 5) and 30-60% humidity, (SLA Statement)

Alarm Monitoring – All essential equipment is tied into Falcon Alarm System (UPS, DC plant, PMM's, BDCBB's, ATS's, Generators, Diesel Tanks, TVSS, Fire system), Operations Alarm Management (OAM) Group Monitors facility falcon units 24/7/365, Alarming is a dry contact system set to normally closed.

DALLAS - 2323 BRYAN

FLOOR LOAD

100 psft

CEILING HEIGHT

10.5 feet above raised floor

ROOF RIGHTS

Roof rights available

LINE OF SIGHT

Clear line of sight to the North and East

SQUARE FOOTAGE

Colocation Area - 17,164 sq. ft.

KVM CART

KVM cart available upon request

PRODUCT AVAILABILITY

Cage Space available
Cabinets Available
UPS Power Available
DC Power Available
Standard Cross Connects – DS0, DS1, DS3, Ethernet, Fiber
PAIX Ports- Port speeds from: 100mbps, GigE, to 10GigE and bonded 10GigE
Metro Cross Connects – Ethernet, GigE
SingleCNXT-i (Internet Access)
TechSmart (remote hands): 24/7/365
Technical Support

SECURITY

Security Systems – Card access control at all secure areas/doors, Surveillance cameras at strategic locations, exterior and interior CCTV coverage, 24/7 Corporate security surveillance, Speaker and Phone system installed throughout facility for correspondence with local and remote security personnel, 30 days of on-site video back-up

PUBLIC PEERING

This location offers Switch and Data PAIX Services
