

SINGLECNXT®-I PRODUCT

Equinix's SingleCNXT-i gives you simple access to multiple network service from a single interface. SingleCNXT-i can help establish or expand your network reach and enhance network capacity and performance.

COST-EFFECTIVE INTERNET ACCESS

As businesses' reliance on the Internet grows exponentially, issues concerning bandwidth availability, security and cost control become even more critical. Access to a broad range of bandwidth providers is a sound strategy for addressing these concerns and improving uptime, efficiency and performance. But the challenges of managing multiple Internet providers can be simply too complex and time-consuming. The ideal approach is a single source solution that delivers more options and less hassle.

As North America's largest neutral marketplace, Equinix® has the people and the resources to help you get more from the Internet. Best of all, our experienced and knowledgeable team works closely with you, providing the ongoing support you need to stay ahead of the competition.

Service provider and enterprise clients rely on Equinix for a streamlined Internet access and colocation solution that delivers fast and reliable connectivity, protection for mission-critical applications and equipment, and reduced costs.

Client Benefits

- One-stop shopping** for comprehensive colocation and Internet access services
- Reduced costs** by offering more provider choices and enabling more competitive pricing
- More connectivity** choices at less cost; also eliminates the need for local loops
- Improved efficiency** with one bill and a single point of customer contact
- Added flexibility** with customizable colocation space and power in our robust facilities

SINGLE SOURCE SOLUTION

Packaged with our secure colocation services, Equinix's SingleCNXT®-i product gives you a superior bandwidth solution for high-quality, cost-effective Internet access, while saving you the hassles of evaluating multiple IP vendors and services. Best of all, you rely on a single point of contact for ordering, provisioning and billing.

SingleCNXT-i was specifically designed to meet the requirements of Internet-reliant companies seeking customizable colocation space and power and Internet access. You can take advantage of our relationships with a broad variety of carriers to streamline your bandwidth quoting, pricing and provisioning processes. Our colocation solution also gives you full control and visibility over your applications and servers, and helps drive dramatic improvements in network security, performance and cost-efficiency.

SingleCNXT-i SPECIFICATIONS

- Connection Types:** DS3, Ethernet and Fiber
- Available Speeds:** 1 Mbps to 1,000 Mbps

HELPING YOU STAY AHEAD

Equinix delivers comprehensive colocation, interconnection and peering solutions in a neutral marketplace built for your business. Additionally, our bundled solutions combine rack space, power, and other products at one price for easy ordering. We give clients access to more markets than any other service provider, and more networks for bandwidth abundance and network redundancy.

Let us bring you the products and services, stability, security, and know-how you require to be successful in today's challenging business environment.
